

BREAKFAST BRIEFING · 28 MAY 2026

1 Lombard Street  
London EC3V 9AA, United Kingdom  
07:45 — 10:00

# Beyond Compliance.

Turning the new **UK Data Use & Access Act** into a competitive advantage — in AI, in research, and in the data you didn't know you had.

IN PARTNERSHIP WITH

# From Risk Scan to DataMapper.

A live look at where sensitive data really lives — and how to turn the discovery into action before DUAA makes that conversation harder.

Most organisations invest heavily in cybersecurity tools — yet the biggest risk is **not knowing where their data lives.**

THE PREMISE OF TODAY'S BRIEFING

# Two kinds of sensitive data, one scan.

DUAA cares about *all* personal data — not just the obvious identifiers. DataMapper looks for both at once.

I.

## The numbers

Structured identifiers — recognised by pattern, validated by checksum.

DK CPR

UK Passport

UK National Insurance

Payment cards

IBAN

II.

## The keywords

Language patterns that signal special-category data under UK GDPR & DUAA.

Health

Ethnicity

Sexuality

Religion

Political beliefs

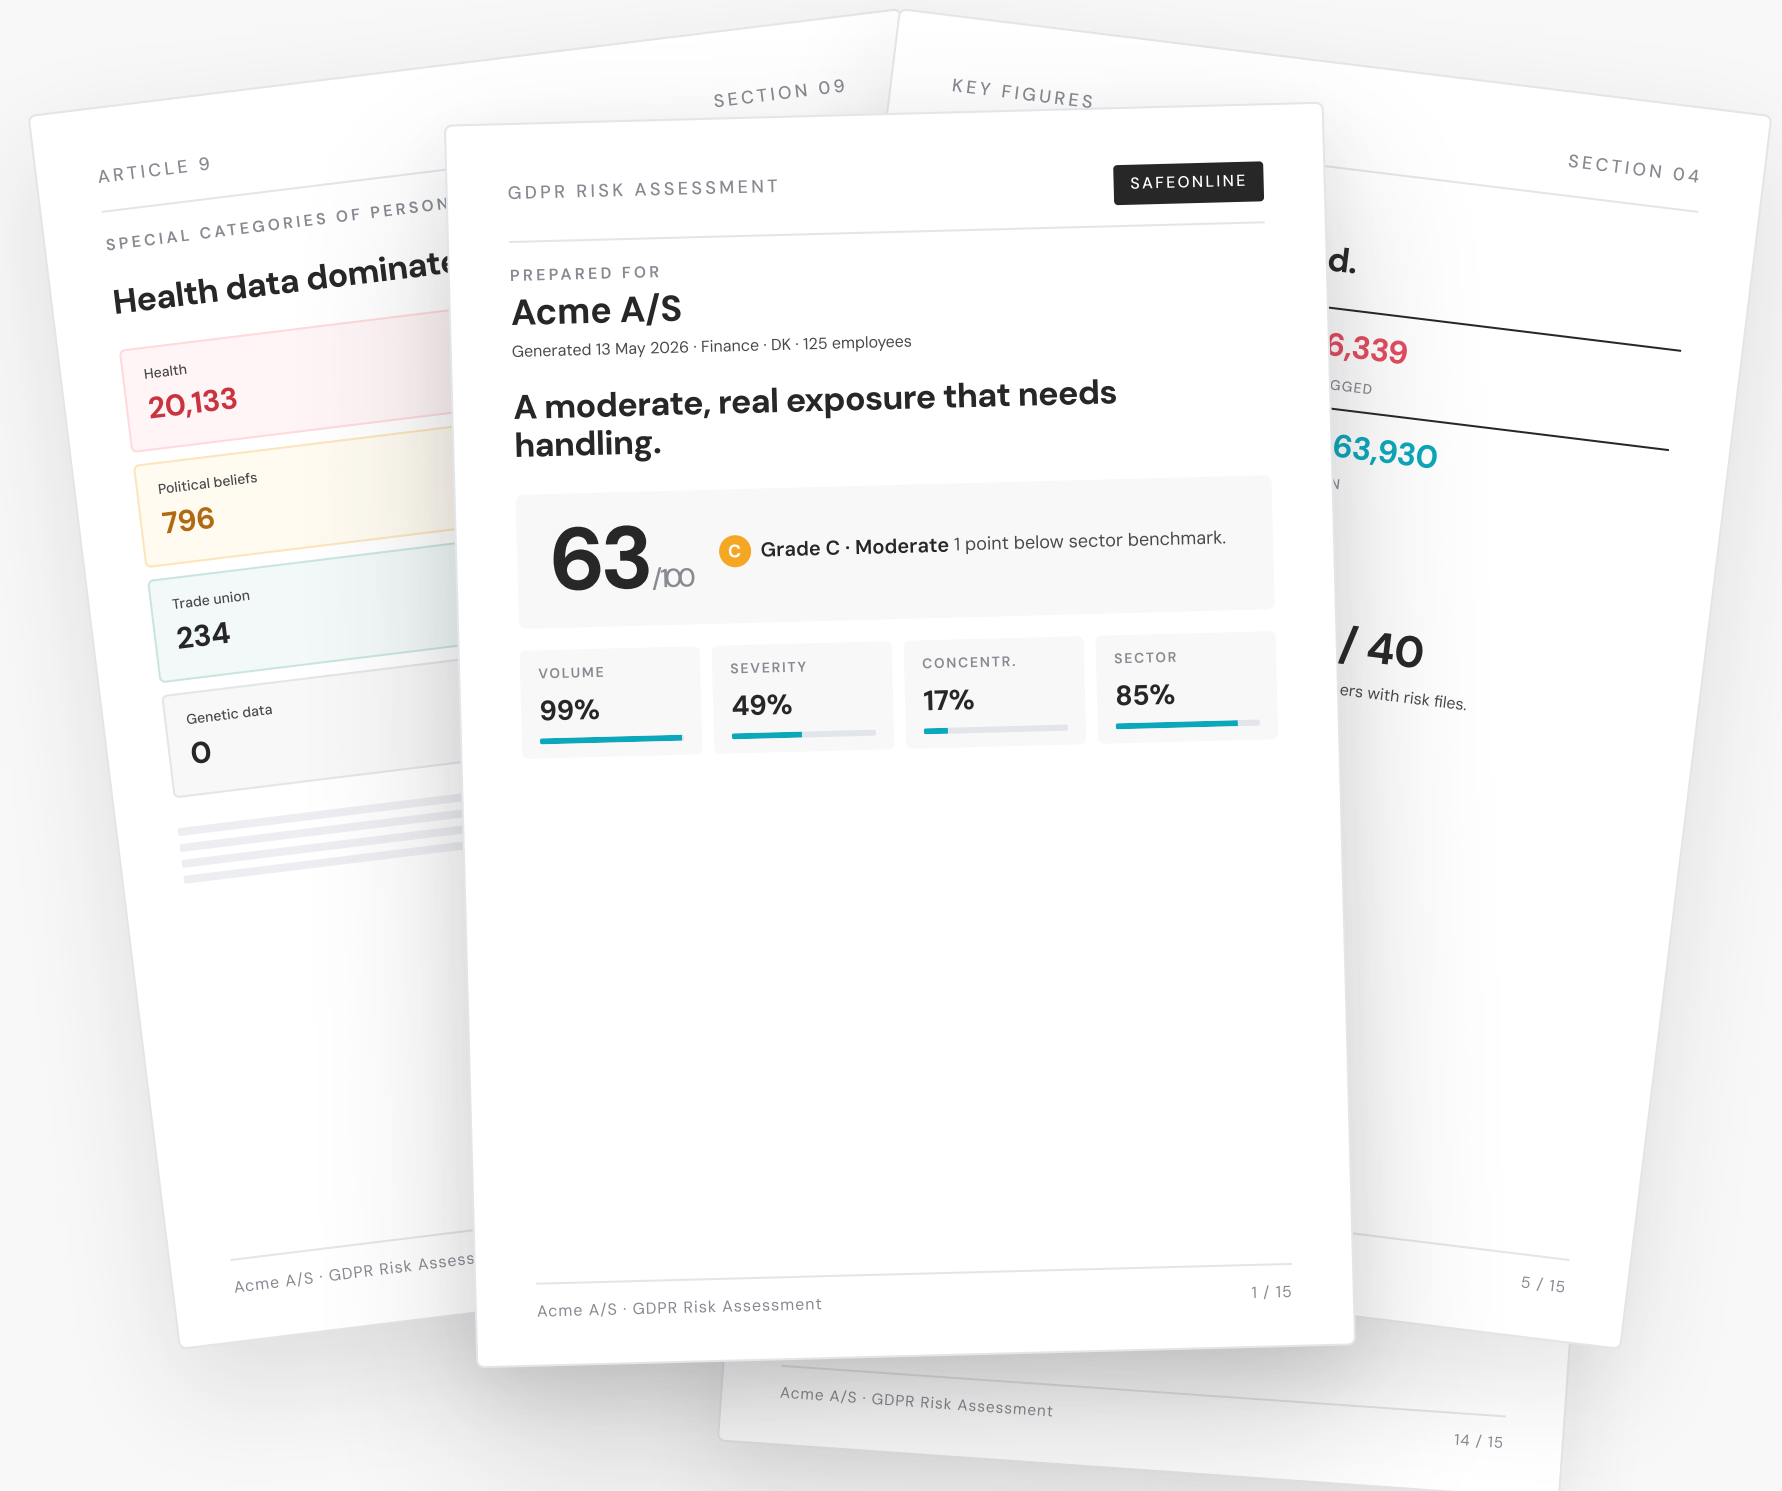

Criminal records

EN + DA + more

# What's **inside** the assessment.

A 15-page report that maps your organisation's personal data and the GDPR exposure that comes with it — honest, evidence-based, and tailored to your sector and size.

- A **composite risk score** benchmarked against your sector and company size.
- A **plain-English narrative** of where you stand and why.
- The **raw numbers** behind every claim — files, users, locations.

15 pages ●●●●●●●●●● of evidence

A GIFT FROM YOUR CHAMBER

# A free risk assessment for every member.

A 15-page report mapping your personal data.

CHAMBER MEMBER OFFER

## The DataMapper risk assessment.

# Free

FOR DKUK, SACC, FBCC, NBCC MEMBERS

Full scan across Outlook, OneDrive and SharePoint.

The full GDPR Risk Assessment report.

A 30-minute walkthrough with our team.
